Subject: Site 8 - Building 118 Abandoned Fuel Tank, and
Site 9 - Steam Plant Building 6 Tank Overfill

Dear Mr. Lewandowski:

I am writing in response to your letter of September 22, 2006, requesting concurrence from the EPA, with your determination that NAS Site 8, Building 118 Abandoned Fuel Tank, and NAS Site 9, Steam Plant Building 6 Tank Overfill, require no further action under CERCLA.

EPA has reviewed the information presented in the Initial Assessment Study of Naval Air Station, Willow Grove, Pennsylvania, February 1986, on the subject sites. These sites did not have contamination subject to response under CERCLA. EPA agrees that these sites require no further investigation under CERCLA.

If I can be of further service, please do not hesitate to call me at (215) 814-3363.

Sincerely,

Lisa M. Bradford
Remedial Project Manager
